The London Herald's Paris correspondent confirms in the most positive manner the statement that the King of Belgium's visit to Biaritz was wholly on account of the debt due to France by Belgium, of £2,000,000, a pressing claim for payment being now put forward.

Letters from the French provinces confirm the reports of the armament of all the great ports. The Goverment has purchased land at a very high price on the Provencal coast for the purpose of erecting fortifications. At Boulogne a floating battery is to be

constructed without sails, navigated by steam and armed with rifle guns. The King of the Belgians would remain

Marseilles two days. It is stated that the return of the Empefor to Paris will be postponed till the 13th

At Madrid great distrust is felt with respect to the policy and action of England with regard to the Morocco question.

The Times' Paris correspondent says the atest and most accredited reports respecting Italy is that the Grand Duke of Tuscany will regain his throne, not by forcible means, but by an appeal to universal suffrage, accompanied by the grant of a constitution, and by a general amnesty; that the Duchess of Parma will have Modena, and that Parma will remain annexed to Piedmont. conduct of the Americans, and is somewhat belligerant in its tone. "We have yielded more than we ought on already freight is being brought down from many American questions," it declares, "simply because the public opinion of the country cannot be ealisted on these paltry disputes, while the destinies of the world are being decided out of doors. But there has probably never yet been an instance of a spot in dispute between the two nations slave, was arrested on Friday, by officer which has been violently seized by one of them on the sole responsibility of an inferior officer. The Times censures the British Government for habitually yielding to every demand of the American Government, and expresses a hope that "we shall be true to ourselves and to those hardy adventurers who, under the supposed protection of the British flag. have spread themselves over the globe

"This language," says the European Times is almost certain to produce language equally defiant on the part of our transatlantic cousins, and is not calculated to lead to a very harmonious solution of the question. It will hardly be adopted by a responsible Minister like Lord John Russell, entirely calculated to weaken the hands of President Buchanan."
